FROM

P H KRISHNA RAU ESQ MA,
MUNICIPAL COMMISSIONER
BANGALORE CITY

10 JULY 1933

To

R Ranga Rao, Esq, B A B L,
Chief Secretary to the Govt of
Mysore, Bangalore

Sir,

With reference to your letter No L 2744/M1 145-32-2 dated the 17th Octr 1932 forwarding the opinion of the Director of Health in Mysore, regarding the layout of sites near poor house block Basavangudy Extension I have the honour to state that the Director of Health has again inspected the spot in company with the Sanitary Engineer and the Health Officer, and revised his opinion already conveyed in his note dated 19-9-1932

A copy of the revised opinion received with his D O No. 624- dated 29-6-1933 is herewith sent

I request that in the light of the revised opinion of the Director of Health the lay out of sites as per plan already submitted with my letter No G T 79 dated 5-9-1932 may be kindly sanctioned at an early date

I have the honour to be,
Sir
Your most obedient servant,

Municipal Commissioner

Forwarded with compliments

Submitted for orders with reference

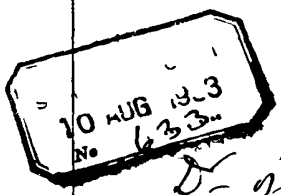
TR No 111 Contd + Dewan ✓ RR 9/8/32. 1978



3 It is desirable that the previous procedure of consulting the D. of H from here sd be followed again. The rd O to the Govt does not deal with the points about the hillock & the difficulties of expansion

4 I sd also like to know if the alternative site mentd by the D. was also examined

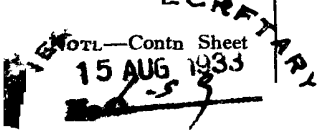
6 Retransmitted with compliments to the Chief Secretary to Government

7 The obvious disadvantages from the presence of the hillock will be minimised by omitting from the lay out certain sites close to it on the lower side



WD 70—GBPM—60 000—13 8 31

382

File No of 193

General and Revenue Secretariat

The numbers of sites so omitted are 92 to 97, 139, 140 169, 170, 182, 183 and 197

Further expansion here is not possible in view of certain natural barriers

8 The question of the alternative site mentioned in the previous note, it is understood, is ~~employing~~ engaging the attention of the Municipality

9 The omission in the lay out of the conservancy lanes seems very desirable and is urged

Lay out of the Extension near the Poor House Block

Basavangudi

***

This was inspected by me along with the Sanitary Engineer and the Health Officer on the 16th June 1933

In view of the particular need of the moment we are prepared to revise the opinion already conveyed in my note of the 19th September, to Government under the following conditions -

1 That All storm water now flowing in irregular channels should be collected in pukka built suitable sized drains and eventually led on to the natural valley to the south where also proper drain should be built, till it is clear of the extension site

2 The sullage and storm water in the poor house block already constructed should also be led into the above drains

3 As every house will be compelled to keep open spaces in front and at the sides the conservancy lanes may be omitted conservancy of houses being done from the main roads

4 Very strict supervision should be exercised over the house construction restriction being placed on overcrowding of sites with structures
